

Journal of Applied Chemistry and Biomedical Laboratory Research (JACBioLab) is a peer-reviewed scientific journal, providing original research articles which highlight the dynamic and transformative applications of Applied Chemistry and Biomedical Laboratory Research across various fields. In addition to its primary focus on applied chemistry and biomedical laboratory research, the journal accepts manuscripts from relevant interdisciplinary and emerging fields. These include innovative research that bridges chemistry, biology, medicine, and technology to address current scientific and healthcare challenges.

Publication Information

Publisher:

Sekolah Tinggi Analis Bakti Asih Bandung (STABA)

Jl. Padasuka Atas No. 233, Bandung, Indonesia

Website: <https://jacbiolab.staba.ac.id>

Email: jacbiolab@staba.ac.id

ISSN (Online): 3125-1404

DOI Prefix: 10.XXXXX/jacbiolab

Copyright & Licensing

Acknowledgment

We would like to acknowledge the contributions of our editorial board, peer reviewers, and supporting staff. Appreciation is also extended to [Institutional Partner(s)/Sponsor(s)] for their support in the publication of this journal issue.

Editorial Board

Editor-in-Chief :

Anita Oktari, M.Si., Sekolah Tinggi Analis Bakti Asih, Indonesia

Managing Editor :

Siti Nur Inayah, M.Si., Sekolah Tinggi Analis Bakti Asih, Indonesia

Section Editors :

Assoc. Prof. Ts. Dr. Mohd Sharizan Md Sarip, Universiti Malaysia Perlis, Malaysia

Lintang Hizbullah, M.Sc., Lund University, Sweden

Peer Reviewer :

Dr. Dheasy Herawati, S.Si., M.Si., Universitas Maarif Hasyim Latif, Indonesia

Acivrida Mega Charisma, S.Si., M.Si., Universitas Anwar Medika, Indonesia

Sani Widyastuti, M.Si., Sekolah Tinggi Analis Bakti Asih, Indonesia

Web Administrator :

Rasyid Shiddiq, Sekolah Tinggi Analis Bakti Asih, Indonesia

VOLUME 2 ISSUE 1 (2026): JUNE 2026

Journal of Applied Chemistry and Biomedical Laboratory Research

Published : June 30, 2026

List of Contents

<u>Synthesis of High-Value Oxalic Acid from Sugarcane Bagasse Waste by Alkaline Melting and Nitric Acid Oxidation</u>		1-6
Euis Yuliani, Dinar Rahaju, Darul Salam, Dedi Kurnia		
<u>Protein-ligand Interaction Modeling between Bovine Serum Albumin (BSA) with M3A and M3GA using Molecular Docking Simulations</u>		7-13
Opik Taupiqurrohman, Taufan Mahardhika, Selma Puteri Pratama, Laissa Andani Putri, Adinda Pinka Salsabila, Nisa Az-Zahro, Siti Nurhayati		
<u>Correlation of the Duration of Type 2 Diabetes Mellitus and Creatinine Levels</u>		14-17
Puspa Dwiyan, Fitri Fadhillah		
<u>Machine Learning Applications in Industrial Pollution Monitoring and Wastewater Management: A Bibliometric Analysis</u>		18-24
Cut Dian Nuryanty		
<u>Effect of Distillation Time on Physicochemical Characteristics and Compound Identification of Nutmeg Oil Using GC-MS</u>		25-31
Razhiqa Febrian Pertiwi, Euis Yuliani, Sani Widyastuti Pratiwi, Intan Hawina, Dinar Rahaju Pudjiastuty		
<u>Analysis of Fasting and 2-Hour Postprandial Blood Glucose Levels among Patients with Type II Diabetes Mellitus</u>		32-38
Ani Riyani, Susilawati, Fitri Fadhillah, Tuti Rustiana
